

FRP Fans Stacks & Ring

'ICS' FRP Fans Stacks have a unique lightweight single wall construction and are designed to match ICS fans or Cooling Tower & Air-Cooled Condenser fans of any other make.

Benefits:

- Extremely stiff construction reduces transmission of vibrations to structure
- Easy and quick assembly on site
- Light weight of segments allows ease of handling
- Inlet bell shape makes fan performance ideal

Standard Features:

- Sizes Available (Diameter): 6 feet to 60 feet (1800 mm – 18000 mm)
- Heights Available: Up to 18 feet (5400 mm)
- Operating temperature range: -4°F to + 248°F (Higher temperature grade available on request)
- Material: Galvanized Steel/ Stainless Steel fasteners
- 'ICS' Fan Stacks have been designed for the greatest thermal efficiency, as well as superior strength.
- The parabolic shape enables high velocity recovery, resulting in maximizing total efficiency and reduced power cost.
